INDEPENDENT AUDITOR'S REPORT

Board of Directors Callayomi County Water District Middletown, California

We have audited the accompanying financial statements of Callayomi County Water District (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1C; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error of fraud.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Board of Directors Callayomi County Water District Middletown, CA

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Callayomi County Water District, as of June 30, 2020, and the respective changes in financial position, and the results of its cash flows for the year then ended in accordance with the modified cash basis of accounting as described in Note 1C.

Basis of Accounting

We draw attention to Note 1C of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United State of America. Our opinion is not modified with respect to the matter.

Other Matters

Required Supplementary Information

The Callayomi County Water District has not presented the Management Discussion and Analysis that accounting principles generally accepted in the United States has determined is necessary to supplement, although not required to be part of, the basic financial statements.

Accounting principles generally accepted in the United States of America require that the supplementary information other than MD&A, as listed in the table of contents on page 21, the Schedule of the District's Proportionate Share of the Net Pension Liability, and page 22, the Schedule of the District's Pension Contributions, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB), who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Callayomi County Water District's basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2

Board of Directors Callayomi County Water District Middletown, CA

U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

echter + Company, CPAs, LLP

In accordance with Government Auditing Standards, we have also issued our report dated June 2, 2021, on our consideration of the Callayomi County Water District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Callayomi County Water District's internal control over financial reporting and compliance.

NOTES TO THE MODIFIED CASH BASIS FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Callayomi County Water District (the District) was formed pursuant to a resolution adopted by the Lake County Board of Supervisors on July 11, 1977. The District operates under the California Water Code, Division 12, Section 30,000 et. Seq. The District is a separate legal reporting entity operating in Lake County.

A. Reporting Entity

The District has defined its reporting entity in accordance with generally accepted accounting principles, which provides guidance for determining which governmental activities, organizations, and functions should be included in the reporting entity. In evaluating how to define the District for financial reporting purposes, management has considered all potential component units. The primary criterion for including a potential component unit within the reporting entity is the governing body's financial accountability. A primary governmental entity is financially accountable if it appoints a voting majority of a component unit's governing body and it is able to impose its will on the component unit, or if there is a potential for the component unit to provide specific financial benefits to, or impose specific financial burdens on, the primary government. A primary government may also be financially accountable if a component unit is fiscally dependent on the primary governmental entity regardless of whether the component unit has a separately elected governing board, a governing board appointed by a higher level of government, or a jointly appointed board.

No operations of other entities met the aforementioned oversight criteria for inclusion or exclusion from the accompanying financial statements in accordance with GASB.

B. Fund Accounting

The accounting records of the District are organized on the U.S. generally accepted basis of accounting for an enterprise fund.

Enterprise Fund – Enterprise funds are used to account for the District's water operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the Board of Directors is that the costs (expenses, including depreciation) of providing services to the general public on a continuing basis be financed or recovered primarily through user charges.

C. Basis of Accounting

The accompanying financial statements have been prepared on the modified cash basis of accounting. This is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America, as prescribed by the Governmental Accounting Standards Board and the American Institute of Certified Public Accountants. The following are some of the ways that the modified cash basis of accounting differs from generally accepted accounting principles.

NOTES TO THE MODIFIED CASH BASIS FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Accounting (Continued)

Generally accepted accounting principles require all proprietary funds to use the accrual basis of accounting. The revenues should be recognized when they are earned. The District recognizes revenues when they are received by the District.

Expenses are recognized under the accrual basis of accounting when the related fund liability is incurred. The modified cash basis of accounting recognizes current expenditures when they are paid. The exception is long-term debt and capital assets. Payments for the principal portion of long-term debt are not recognized as expenditures, but reduce the long-term debt and purchases of capital assets are capitalized when purchased and then expensed with annual depreciation over the life of the asset.

Operating revenues in the proprietary funds are those revenues that are generated from the primary operation of the fund. All other revenues are reported as nonoperating revenues. Operating expenses are those expenses that are essential to the primary operations of the fund. All other expenses are reported as nonoperating expenses.

D. Fixed Assets

Acquisitions of fixed assets are capitalized at cost and the related accumulated depreciation is recorded. Depreciation is provided for using the straight-line method over the estimated useful lives as indicated in the District's capital asset policy. The District has adopted a capital asset policy in accordance with GASB 34.

E. Cash Equivalents

For purpose of the statement of cash flows, the District considers cash and cash equivalents as short term, highly liquid investments that are both readily convertible to known amounts of cash and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates.

F. Budgetary Reporting

The District prepares an annual operating and capital budget, which is approved and adopted by the Board of Directors. The budget serves as an approved plan to facilitate financial control and operational evaluation. California State law does not require formal adoption of appropriated budgets for enterprise funds.

NOTES TO THE MODIFIED CASH BASIS FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

G. Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

H. Estimated Insurance Liabilities

The District maintains a commercial package policy that provides limits of liability of \$5,000,000 per occurrence annually.

I. Net Position

Net position comprises the various net earnings from operating income, non-operating revenues, and expenses and capital contributions. Net position is classified in the following three components:

Net investment in capital assets – This component of net position consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of the net investment in capital assets. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.

Restricted – This component of net position consists of constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position – This component of net position consists of net position that do not meet the definition of "restricted" or "net investment in capital assets."

J. Compensated Absences

Compensated absences represent the vested portion of accumulated vacation and compensated time off. In accordance with GASB 16, the liability for accumulated leave includes all salary related payments that are directly and incrementally connected with leave payments to employees.

NOTES TO THE MODIFIED CASH BASIS FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

K. Property Tax Revenue

The District receives property taxes from the County of Lake, which has been assigned the responsibility for assessment, collections, and apportionment of property taxes for all taxing jurisdictions within the County. Secured property taxes are levied on January 1 for the following fiscal year and on which date it becomes a lien on real property.

Secured property taxes are due in two installments on November 1 and February 1 and are delinquent after December 10 and April 10, respectively, for the secured roll. Property taxes on the unsecured roll are due on the January 1 lien date and become delinquent if unpaid by August 31. Property tax revenues are recognized in the fiscal year they are received.

NOTE 2: CASH AND INVESTMENTS

A. Investments Authorized by the California Government Code and the Entity's Investment Policy

The table below identifies the investment types that are authorized for the District by the California Government Code (or the District's investment policy, where more restrictive). The table also identifies certain provisions of the California Government Code (or the District's investment policy, where more restrictive) that address interest rate risk, credit risk, and concentration of credit risk. This table does not address investments of debt proceeds held by bond trustees that are governed by the provisions of debt agreements of the District, rather than the general provisions of the California Government Code or the District investment policy.

B. Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investment by maturity:

			Remaining Maturity (in Mon			in Months)
			12	2 Months		13-48

^{*} Not subject to categorization

NOTES TO THE MODIFIED CASH BASIS FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 2: CASH AND INVESTMENTS (CONTINUED)

C. Concentrations of Credit Risk

The investment policy of the District contains limitations on the amount that can be invested in any one issuer. There are no investments to one issuer exceeding those limits.

D. Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposit or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment of collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits. The California Government Code requires that a financial institution secured deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the government unit). The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure the District's deposits by pledging first deed mortgage notes having a value of 150% of the secured public deposits.

At June 30, 2020, the District's deposits balance was \$50,615 and the carrying amount was \$50,615. The difference between the bank balance and the carrying amount (if any) was due to normal outstanding checks and deposits in transit. Of the bank balance, all was covered by the Federal Depository Insurance.

E. Investment in County Investment Pool

Investments are accounted for in accordance with the provisions of GASB Statement No. 31, which requires governmental entities to report certain investments at fair value in the balance sheet and recognize the corresponding change in fair value of investments in the year in which the change occurred. The District reports its investments at fair value based on quoted market information obtained from fiscal agents or other sources if the change is material to the financial statements.

NOTES TO THE MODIFIED CASH BASIS FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 3: CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2020, was as follows:

2025		8,500		2,088	10,588
2026-2029		27,500		2,400	 29,900
Total	\$	66,000	\$	16,764	\$ 82,764

B. State Revolving Fund Loan (SRF)

In fiscal year ended June 30, 2017, the District entered into a loan agreement with the California State Water Resources Control Board (SWRCB) for the construction of Big Canyon Production Well Improvements. As of June 30, 2019, the District had borrowed \$67,914 against this loan. In October 2019, the SWRCB forgave 100% of the loan. The loan forgiveness is included as non-operating revenue on the District's statement of revenues, expenses, and changes in net position.

NOTE 5: DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN

A. General Information about the Pension Plans

Plan Descriptions – All qualified permanent and probationary employees are eligible to participate in the District's Miscellaneous Employee Pension Plans, cost-sharing multiple employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions, and membership information that can be found on the CalPERS website.

Benefits Provided – CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

NOTES TO THE MODIFIED CASH BASIS FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 5: DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN (CONTINUED)

A. General Information about the Pension Plans (continued)

The Plans' provisions and benefits in effect at June 30, 2020, are summarized as follows:

	Prior to	On or After
Hire date	January 1, 2013	January 1, 2013
Benefit formula	2.7% @ 55	2% @ 62
Benefit vesting schedule	5 years service	5 years service
Benefit payments	Monthly for life	Monthly for life
Retirement age	50 - 55	57 - 62
Monthly benefits, as a % of compensation	2.2% to 2.7%	1% to 2%
Required employee contribution	8.00%	6.75%
Required employer contribution	13.18%	6.99%

Contributions – Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plans are determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the year ended June 30, 2020, the contributions recognized as part of pension expense for each Plan were as follows:

Contributions - employer	\$ 46,654
Contributions - employee	\$ 4,828

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2020, the District reported net pension liabilities for its proportionate shares of the net pension liability of the Plan as follows:

	Proporti	onate Share of
	Net Per	nsion Liability
Miscellaneous Plan	\$	324,353

NOTES TO THE MODIFIED CASH BASIS FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 5: DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN (CONTINUED)

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

The District's net pension liability for each Plan is measured as the proportionate share of the net pension liability. The net pension liability is measured as of June 30, 2019, and the total pension liability for used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

The District's proportionate share of the net pension liability as of the June 30, 2018 and 2019 measurement dates were as follows:

Proportion - June 30, 2018	0.00815%
Proportion - June 30, 2019	0.00810%
Change - Increase (Decrease)	-0.00005%

For the year ended June 30, 2020, the District recognized pension expense of \$72,553. At June 30, 2020, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows		Deferred Inflows	
	of Resources		of Resources	
Differences between expected and actual experience	\$	20,782	\$	-
Change of assumptions		9,984		-
Differences between projected and actual earnings on pension				
plan investments		-		(5,671)
Changes in proportion		-		(2,248)
Changes in proportionate share of contributions		-		(5,324)
District contributions subsequent to the measurement date		46,654		-
Total	\$	77,420	\$	(13,243)

\$46,654 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020.

NOTES TO THE MODIFIED CASH BASIS FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 5: DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN (CONTINUED)

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Measurement	Deferred	
Period Ended	Outflows/(Inflows	(3
June 30,	of Resources	
2021	\$ 20,394	1
2022	(5,429))
2023	1,410)
2024	1,148	3
	\$ 17,523	3

Actuarial Assumptions – The total pension liabilities in the June 30, 2018 actuarial valuations were determined using the following actuarial assumptions:

Valuation Date	June 30, 2018
Measurement Date	June 30, 2019
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Payroll Growth	3.00%
Projected Salary Increase	Varies by entry age of service
Investment Rate of Return	7.15%

Discount Rate – The discount rate used to measure the total pension liability was 7.15% for each Plan. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.15 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long term expected discount rate of 7.15 percent will be applied to all plans in the Public Employees Retirement Fund (PERF). The stress test results are presented in a detailed report that can be obtained from the CalPERS website.

NOTES TO THE MODIFIED CASH BASIS FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 5: DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN (CONTINUED)

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

CalPERS checked the materiality threshold for the difference in calculation and did not find it to be a material difference.

Any changes to the discount rate will require Board action and proper stakeholder outreach. For these reasons, CalPERS expects to continue using a discount rate net of administrative expenses for GASB 67 and 68 calculations through at least the 2019-20 fiscal year. CalPERS will continue to check the materiality of the difference in calculation until such time as we have changed our methodology.

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These rates of return are net of administrative expenses.

	New Strategic	Real Return	Real Return
Asset Class	Allocation	Years 1-10 (1)	Years 11+ (2)
Global Equity	50.00%	4.80%	5.98%
Fixed Income	28.00%	1.00%	2.62%
Inflation Assets	0.00%	0.77%	1.81%
Private Equity	8.00%	6.30%	7.23%
Real Estate	13.00%	3.75%	4.93%
Liquidity	1.00%	0.00%	-0.92%

- (1) An expected inflation of 2.00% used for this period.
- (2) An expected inflation of 2.92% used for this period.

NOTES TO THE MODIFIED CASH BASIS FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 5: DEFINED BENEFIT PENSION COST-SHARING EMPLOYER PLAN (CONTINUED)

B. Pension Liabilities, Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate — The following presents the District's proportionate share of the net pension liability for each Plan, calculated using the discount rate for each Plan, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	Disco	ount Rate -1%	Current Discount Rate		e Discount Rate +	
		(6.15%) (7.15%)		(7.15%)		(8.15%)
		_				
Miscellaneous Plan	\$	520,280	\$	324,353	\$	162,630

NOTE 6: OPERATING LEASE

The District has a 50-year cancelable lease with Middletown Farm and Cattle Co. to purchase water ending September 13, 2038. The District must purchase a minimum of 48 million gallons annually at a cost of \$23,326, adjusted annually for inflation, with additional payments for any overage of water leased. The total paid under this operating lease for the 2019/20 fiscal year was \$71,204.

NOTE 7: REVENUE LIMITATIONS IMPOSED BY CALIFORNIA PROPOSITION 218

Proposition 218, which was approved by the voters in November 1996, regulates the District's ability to impose, increase, and extend taxes and assessments. Any new increase or extended taxes and assessments subject to the provisions of Proposition 218, requires voter approval before they can be implemented. Additionally, Proposition 218 provides that these taxes and assessments are subject to voter initiative and may be rescinded in the future years by the voters.

NOTE 8: COMMITMENTS AND CONTINGENT LIABILITIES

Commitments

As of June 30, 2020 the District was under contract with Pacific Infrastructure Corporation to build the new administrative building. The contract amount was \$2,378,763 with a remaining balance to complete the project of \$\$225,996 at June 30, 2020.

The District had other ongoing engineering, legal and professional service agreements as of June 30, 2020.

NOTES TO THE MODIFIED CASH BASIS FINANCIAL STATEMENTS JUNE 30, 2020

NOTE 8: COMMITMENTS AND CONTINGENT LIABILITIES (CONTINUED)

Commitments (Continued)

Contingent Liabilities:

In the normal course of business, the District is subject to various lawsuits. Defense of lawsuits would typically be handled by the District's insurance carrier and losses, if any, are expected to be covered by insurance.

The District has ongoing contracts/agreements for engineering and other professional services.

Grant Contingencies

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time.

NOTE 9: COVID-19

In January 2020, the virus SARS-CoV-2 was transmitted to the United States from overseas sources. This virus, responsible for the Coronavirus disease COVID-19, has proven to be extremely virulent with transmission rates as yet unknown. Although the financial impact on the District thus far has been minimal, the long-term economic impact in the State of California and the County of Lake, as yet has not been determined, and therefore any potential impact on the District is not yet known.

NOTE 10: SUBSEQUENT EVENTS

The District has evaluated subsequent events through June 2, 2021, which is the date the basic financial statements were available to be issued. Based upon this evaluation, except for the following, it was determined that no other subsequent events occurred that require recognition or additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors Callayomi County Water District Middletown, California

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of Callayomi County Water District (the District) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated June 2, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and, therefore, there can be no assurance that all such deficiencies have been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Directors Callayomi County Water District Middletown, California

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CALLAYOMI COUNTY WATER DISTRICT OTHER INFORMATION

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

Board of Directors Callayomi County Water District Middletown, California

Report on Compliance for Each Major Federal Program

We have audited Callayomi County Water District's (the District) compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of the District's major federal programs for the fiscal year ended June 30, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal* Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Board of Directors Callayomi County Water District Middletown, California

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Other Matters

The results of our auditing procedures disclosed no instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Board of Directors Callayomi County Water District Middletown, California

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

June 2, 2021

Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2020

	Pass-through Entity	CFDA		
Federal Grantor/Pass-through Grantor/Program Title	Identifying Number	Number	Expenditures	
The Department of Homeland Security				
Governor's Office of Emergency Services:				
	FEMA 033-04776-00/Cal			
Pubic Assistance Grant	OES ID: 033-91016	97.036	\$ 1,049,559	
Total U.S. Department of Homeland Security-Federal Emergency Management Agency				
Total Expenditures of Federal Awards			\$ 1,049,559	

Notes to Schedule of Expenditures of Federal Awards Fiscal Year Ended June 30, 2020

NOTE 1: REPORTING ENTITY

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal awards programs of District. The District's reporting entity is defined in Note 1 to the basic financial statements. All federal awards received directly from federal agencies as well as federal awards passed through other government agencies are included in the schedule.

NOTE 2: BASIS OF ACCOUNTING

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the District and is presented on the modified cash basis of accounting, recognizing current expenditures when they are paid with the exception of long-term debt and capital assets. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal* Awards (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE 3: RELATIONSHIP TO FINANCIAL STATEMENTS

The amounts reported in the accompanying schedule of expenditures of federal awards agree, in all material respects, to amounts reported within the District's financial statements. Federal award revenues are reported principally in the District's financial statements as intergovernmental revenues in the General Fund.

NOTE 4: LOANS OUTSTANDING WITH CONTINUING COMPLIANCE REQUIREMENT

No program had federally-funded loans with a continuing compliance requirement outstanding at June 30, 2020.

NOTE 5: SUBRECIPIENTS

The federal programs shown in the accompanying Schedule of Expenditures of Federal Awards had no subrecipients during the year ended June 30, 2020.

NOTE 6: INDIRECT COST RATE

This program provides that the District shall receive direct administrative costs in accordance with 2 CFR 200.413 instead of indirect costs under 200.414(f). Since only direct administrative costs are allowable under this grant, the District is not eligible for the 10-percent de minimus indirect cost rate under the Uniform Guidance.

Schedule of Findings and Questioned Costs June 30, 2020

SECTION 1 – SUMMARY OF AUDITOR'S RESULTS

Financial Statements

Type of auditor's report issued:

Unmodified

Internal control over financial reporting:

Material weaknesses identified No

Significant deficiencies identified not

considered to be material weaknesses No

Non-compliance material to financial statements noted No

Federal Awards

Internal control over major programs:

Material weaknesses identified No

Significant deficiencies identified not

considered to be material weaknesses No

Type of auditor's report issued on compliance

for major programs:

Unmodified

Any audit findings disclosed that are required

to be reported under the Uniform Guidance No

Identification of major programs:

CFDA Number Name of Federal Program or Cluster

97.036 Public Assistance Grants

Dollar threshold used to distinguish

Between Type A and Type B programs \$750,000

Auditee qualifies as low-risk auditee under the Uniform Guidance No

SECTION 2 - FINANCIAL STATEMENT FINDINGS

No findings reported

SECTION 3 - FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

No findings reported

CALLAYOMI COUNTY WATER DISTRICT Summary Schedule of Prior Audit Findings June 30, 2019

<u>Prior Year Findings and Recommendations Relating to Financial Statements Reported in Accordance with Government Auditing Standards</u>

Finding No. FS 2019-001

Condition: It was reported that during our audit we proposed material journal entries to adjust the financial statements in order to agree to the underlying support. We proposed a \$37,173 entry to record depreciation expense and accumulated depreciation, an entry to reclassify \$1,611,513.63 from service and supply and capital expense accounts to the construction in progress asset account, and a journal entry for \$95,632 to reclassify from deferred advance to insurance proceeds to recognize the amount of insurance payments advanced in prior years that should be recognized as earned in the current year. We also proposed journal entries that were not considered material to true up the holding bank account, to true up compensated absences, to reclassify bond principal expense and to record GASB 68 pension activity.

Recommendation: It was recommended that prior to the audit, the District reconcile and adjust account balances to the underlying support as part of year-end closing procedures.

Status: Implemented.

Finding No. FS 2019-002

Condition: It was reported that the District had a lack of segregation of duties, as one person is capable of handling all aspects of processing transactions from beginning to end. A lack of segregation of duties increases the risk of potential errors or irregularities occurring without being detected; however, due to a limited number of personnel an adequate segregation of duties is not possible without incurring additional costs.

Recommendation: It was recommended that the District segregate duties to the greatest extent possible given the limited staff size. District management should also monitor the work of employees who have access to financial resources and perform internal checks to verify that those resources are being used only for District purposes.

Status: Implemented.

Prior Year Findings and Recommendations Relating to Federal Awards

Finding No. SA 2019-001:

Federal Grantor Agency: U.S. Department of Homeland Security – Federal Emergency

Management Agency

Pass-Through Agency: California Governor's Office of Emergency Services

Program Title: Public Assistance Grants

Federal CFDA Number: 97.036

Pass-Through Grantor's Number FEMA-4240-DR-CA; Cal OES ID: 033-91016

Awarded 2015-16 Year

Compliance Requirement: Allowable Costs and Period of Performance

Reporting Requirement: Significant Deficiency

CALLAYOMI COUNTY WATER DISTRICT Summary Schedule of Prior Audit Findings June 30, 2019

Prior Year Findings and Recommendations Relating to Federal Awards-Continued

Condition: It was reported that the General Manager's review and approval of all invoices is one of the District's important internal controls over allowable costs/activities and period of performance. The General Manager's approval of invoices is documented by his initials or signature on the invoices he reviews.

A sample of 20 disbursements for testing. It was noted that 5 of the invoices were not signed or initialed by the General Manager.

Recommendation: It was recommended that the District ensure that the General Manager has initialed or signed all invoices to show his approval before the invoice is processed for payment.

Status: Implemented
